

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D. C. 20505

OFFICE OF THE DIRECTOR

18 July 1972

25X1

Pursuant to your letter of 20 April to the Director of Central Intelligence, we have reviewed the Office of Training study, "Intelligence for National Policy," which you authored while on Government-supported study at Princeton University. We note the care you took in the writing of the study to avoid the inclusion of classified information, and the passage of time since the study was published. At this point, therefore, the Director has authorized the declassification of this study, with certain exceptions of which you are aware.

We note that the writing of the study was supported by the Government and that you do not intend to publish it. Thus, the study will be held available for examination here by individuals referred by you.

Sincerely,

Executive Director-Comptroller
